**Important!**
Always have an adult help you!

**What you'll need:**
- small pieces of board
- hammer
- nails
- metal bottle caps

1. Organize your materials.
2. Carefully use a hammer to flatten the bottle caps.
3. Then, use a hammer and nail to pound a hole through the middle of the bottle caps.
4. Stack four flattened bottle caps onto an upside down nail.
5. Pound the nail, with bottle caps still on, into one end of the board.
6. Repeat step 4 with three or four nails, separated enough to provide space for the bottle caps to rattle.

Shake shake shake to make a rhythm!
